ALBURY BROTHERS 33

The Albury Brothers 33 was born out of demand for a big sister to the builder's 27-footer. Willard Albury and crew tweaked the hull plug until it was perfect at the company shop on Man O' War Cay, Abaco, Bahamas. The 11' beam tapers down 18 inches at the stern, a design that keeps

her end light and reduces drag. The 33 has substantial freeboard, while still maintaining an attractive shear line. Cavernous storage abounds in the forward seating area, fish boxes, console head compartment, and the aft lazarette. The aft section offers practicality, and the walk-around livewell is great for fishing. The boat carries up to 14 passengers and is easy to enter and depart. The 33's all-around ride, handling and stability is the result of Albury's building tradition of round-bilge boats, and the 33 provides a seaworthy ride.

On a sloppy day, enjoy a comfortable running attitude by throttling the twin Yamaha 300-hp engines down to 3500 RPM and 25 mph at 1.8 miles per gallon. With twin 350-hp outboards the boat runs to a top speed of 48 mph. alburybrothers.com; (561) 862-7006
